COLABORATORIO

Enhancing and strengthening the collaboration between
researchers and academics around the world

Tania Altamirano L.
Communities General Coordinator
RedCLARA

Maputo, Mozambique,
November 19th, 2015

What's Colaboratorio?

Platform developed by RedCLARA to support and promote the collaboration of scientists and academic groups initially intended for users in Latin America.

The screenshot shows the RedCLARA Colaboratorio platform. At the top, there is a navigation bar with the RedCLARA logo, a search bar, and links for 'COLABORATORIO', 'Actualidad Académica', 'Alerta de Fondos', 'Noticias', 'Comunidades', and 'e-Challenges'. On the left, a sidebar menu includes 'Inicio', 'Comunidades', 'Busco Socios', 'VC Espresso', 'SIVIC', 'eENVIO', and 'Agenda Global'. The main content area features several news items: 'Actualidad Académica' with a salt shaker image and the headline 'The Great Salt Debate: How Much Sodium Is Too Much for Your Diet?', 'Alerta de Fondos' with a grant announcement, 'Noticias' with a news item about a conference, 'Agenda Global' with an e-Challenges 2015 announcement, and 'Comunidades' with icons for various partners like RNP, CEDIA, and REACOUN.

What can we do on Colaboratorio?

eNVIO: Large files transfer

- Complete the fields of the form, choose the file to be sent and write the recipient email (you have up to 10GB for every transfer).
- Define the period of time in which the material will be available for download; after 20 days the system will delete your files automatically.
- eNVIO allows you to upload files with extensions doc, xls, pdf, docx, odt, xlsx, mov, rar and zip. If you want to send more than one file or your document has a different extension, compress them and use one of the two last formats to upload them.
- Only the people you have shared the file with, will receive an email with a link to download it.

What can we do on Colaboratorio?

eNVIO: Large files transfer

The screenshot shows the eNVIO Large Files Transfer interface within the COLABORATORIO platform. The left sidebar includes links for Home, Communities, Partner Finder, VC Espresso, SMC, eNVIO, and Global Agenda. The main area has tabs for Send File, Guest Voucher, and My Files, with the Send File tab selected. It features fields for To (multiple email addresses), From (carlos.gonzalez@redclara.net), Subject, Message, and Expiry date (17/11/2015). Below these is a 'Select your file' section with a 'Browse...' button and a message stating 'No file selected.' The bottom navigation bar includes icons for RNP, RedCLARA, cedla, cubi, and several other partners.

Partnerships for Enhanced Engagement in Research (PEER) | 2015-12-09 | USD 120000

Earth and related environmental sciences | Agriculture, forestry, and fisheries | Animal and dairy science

The United States Agency for International Development (USAID) is the U.S. Government's preeminent foreign assistance agency. The agency is dedicated to helping nations meet the needs of their citizens by providing health-care, education, and economic opportunity to end extreme poverty and promote democratic, resilient societies. The U.S. Global Development Lab (The Lab) at USAID is bringing together a diverse set of partners to discover, test, and scale breakthrough solutions to address critical challenges in international development. A key element of this strategy is the support of scientific and technological research through the Partnerships for Enhanced Engagement in Research (PEER) program. PEER is a competitive grants program that invites scientists in developing countries to apply for funds to support research and capacity-building activities on topics of importance to USAID and conducted in partnership with U.S. Government-funded partners.

What can we do on Colaboratorio?

Communities: Creating and participate in academic/research groups

The screenshot shows the Colaboratorio platform interface. On the left, there is a sidebar with links: Home, Communities (highlighted), Partner Finder, VC Espresso, SVIC, eNVIO, and Global Agenda. The main area has a header with flags and user information. Below the header is a search bar labeled "Search for a Community" with options: "Search by words" (2), "A-Z" (3), "THEMATIC AREAS" (4), "COMMUNITIES OF INTEREST" (5), "Collaboration Map" (6), and a "+Community" button. The results show two communities: "Comunidad de Prueba" (Private, 5 Members) and "Gerencia Colaboratorio" (Private, 2 Members). To the right, there is a "Global Agenda" section listing events like "Encuentros Temáticos de la Comunidad TICAL" and "Fourth International Conference on Advanced Information Technologies and Applications (ICAITA 2015)".

1. Communities created by you or those you are a participant of.
2. All Communities listed in alphabetical order.
3. All Communities arranged by scientific theme.
4. Communities filtered by scientific themes which correspond to the user profile.
5. Collaboration Map.
6. Creating a new community.
